ABOUT US

Building Knowledge. Developing Skills. Shaping Healthcare Professionals.

Susheeladevi Naturopathy and Yogic Sciences Medical College is designed as a launchpad for careers across **medical and wellness sciences**.

We emphasize **academic depth, clinical maturity and the habit of thinking clearly under real-world constraints**. Students are guided to build strong fundamentals, communicate with precision and translate classroom learning into disciplined practice.

Our learning environment brings together:

- Strong academic foundations
- Practical and clinical learning
- Hospital exposure
- Faculty mentorship
- Community-focused healthcare
- Yoga and wellness education
- Professional discipline
- Ethical patient care

We want our students to graduate with more than a qualification. We want them to develop the **knowledge, confidence, clinical maturity and professional responsibility** required to contribute meaningfully to the healthcare and wellness sector.

Whether you are searching for a **BNYS College in Maharashtra**, a **Naturopathy College near Kolhapur**, a **BNYS College near Sangli**, or a **Naturopathy and Yogic Sciences College near Belgaum**, Susheeladevi offers an environment focused on purposeful medical education.

Affiliated to:

Rajiv Gandhi University of Health Sciences, Bengaluru – Karnataka

Recognised by:

Department of AYUSH, Ministry of Health and Family Welfare, Government of Karnataka

WORDS FROM THE CHAIRMAN

Healing Is a Responsibility Before It Is a Profession

“Vaidyo Narayana Hari”

Healing is a responsibility as much as it is a profession.

Medical education asks for patience with fundamentals: anatomy studied carefully, physiology understood deeply, and skills rehearsed until they become dependable.

We invite students who are willing to learn steadily, respect patients and grow into professionals whom the community can trust.

At Susheeladevi Naturopathy and Yogic Sciences Medical College, our aim is to create an environment where students develop not only academic knowledge but also the discipline, compassion and responsibility required in healthcare.

— **Dr. Parashuram H. Rawal and Faculty**

OUR APPROACH TO EDUCATION

Learn. Practise. Reflect. Improve.

Our teachers share a simple belief: **excellence is built through disciplined repetition, honest feedback and meaningful mentorship.**

Students receive structured guidance throughout their academic journey. We encourage them to ask questions, strengthen their fundamentals, practise their skills and continuously improve.

Our faculty combines encouragement with accountability so that students gradually develop the confidence to approach real-world healthcare situations with clarity and professionalism.

Parents can expect transparent communication about student progress, while students can expect consistent academic and professional guidance as they develop into future healthcare and wellness professionals.

WHY CHOOSE SUSHELADEVI?

An Education Designed Around Your Future

Choosing a medical college is one of the most important decisions a student and family make.

Susheeladevi Naturopathy and Yogic Sciences Medical College focuses on creating an academic environment that combines **medical science, naturopathy, yogic sciences, practical learning and professional mentorship**.

Eligibility Clarity

Know Where You Stand Before You Begin

We provide transparent guidance on **PCB requirements, qualifying marks, English proficiency expectations and age criteria**, helping students and parents understand the admission requirements and plan their academic journey with confidence.

Mentorship

Guidance That Goes Beyond the Classroom

Students receive support from **Dr. Parashuram H. Rawal and experienced faculty members**, with structured academic and professional guidance designed to help them develop into confident, ethical and responsible healthcare practitioners.

Career Breadth

A Healthcare Education with Multiple Possibilities

Training is anchored in medical science while opening pathways across **naturopathy, yogic sciences, wellness, preventive healthcare, integrative health, community health and emerging wellness careers**.

Practical Learning

Turn Knowledge Into Professional Skill

Healthcare cannot be learned entirely from textbooks. Our academic approach encourages students to connect theoretical concepts with practical learning, clinical observation, patient interaction and disciplined practice.

Professional Development

Develop the Confidence to Serve

Students are encouraged to build communication skills, clinical thinking, professional discipline and patient-centred behaviour alongside their academic knowledge.

BNYS COURSE

Bachelor of Naturopathy and Yogic Sciences

The **Bachelor of Naturopathy and Yogic Sciences (BNYS)** is a professional healthcare programme that brings together medical sciences, naturopathy, yogic sciences, lifestyle management and holistic approaches to health and wellbeing.

The programme provides students with a foundation in medical sciences while introducing them to approaches that focus on **prevention, healthy living, lifestyle modification and natural approaches to wellbeing**.

Students develop knowledge and skills through academic learning, practical training and clinical exposure.

What You Can Explore Through BNYS

- Human Anatomy
- Human Physiology
- Biochemistry
- Pathology
- Microbiology
- Pharmacology
- Nutrition
- Yoga
- Naturopathy
- Lifestyle Management
- Preventive Healthcare
- Clinical Training
- Patient Care
- Community Health

A Degree. A Profession. A Purpose.

BNYS can open opportunities across healthcare, naturopathy, wellness, yoga, preventive health, rehabilitation, corporate wellness, health resorts and other emerging areas of the wellness industry.

INFRASTRUCTURE

An Environment Designed for Focused Learning

A good medical education requires more than classrooms. Students need spaces where they can study, practise, interact, collaborate and develop professionally.

Susheeladevi Naturopathy and Yogic Sciences Medical College provides essential infrastructure designed to support academic learning and student life.

HOSTEL

A Comfortable Space to Learn and Grow

Student accommodation designed to provide a supportive environment where students can focus on their academic journey while experiencing campus life.

CANTEEN

Everyday Nutrition for Everyday Learning

A campus dining environment designed to support students through their busy academic schedules.

LIBRARY

A Space for Knowledge and Independent Learning

Access to academic resources that encourage reading, research, reference study and continuous learning.

SMART LAB

Learn Through Modern, Practical Experiences

Technology-enabled learning spaces designed to help students connect theoretical concepts with practical understanding.

CLINICAL EXCELLENCE

Learn Beyond the Classroom

Healthcare education becomes meaningful when students learn to connect knowledge with real-world situations.

Our clinical learning approach gives students opportunities to understand patient care, observe clinical practices and develop professional discipline through practical exposure.

INTERNSHIP IN MULTISPECIALTY NATUROPATHY HOSPITALS

Experience Healthcare in a Real Clinical Environment

Students can develop practical understanding through internship and clinical exposure in **multispecialty naturopathy hospital environments**, helping them build confidence and professional maturity.

CAREER PATHWAYS

Where Can BNYS Take You?

A BNYS qualification can open pathways across healthcare, wellness, preventive health and lifestyle management.

Students can explore career opportunities in:

Naturopathy & Wellness Practice

Build a career in naturopathy, natural healthcare and wellness services.

Yoga & Lifestyle Management

Apply knowledge of yoga and lifestyle practices in wellness-focused environments.

Wellness Resorts

Explore opportunities in wellness resorts, retreats and holistic health centres.

Corporate Wellness

Work with organisations focusing on employee health, wellness and preventive healthcare.

Integrative Healthcare

Explore emerging opportunities at the intersection of conventional healthcare and wellness approaches.

Community Health

Contribute to health awareness, preventive healthcare and community-focused wellness programmes.

Entrepreneurship

Develop your own wellness practice, centre or healthcare-focused venture, subject to applicable professional regulations.

GLOBAL CAREER OUTLOOK

Take Your Knowledge Beyond Borders

Wellness is becoming increasingly global.

The growing interest in **yoga, preventive healthcare, lifestyle management, wellness tourism and holistic wellbeing** creates opportunities for professionals with relevant education and skills.

Students can explore potential career pathways across:

- Wellness Resorts
- International Wellness Centres
- Corporate Health Programmes
- Yoga and Wellness Organisations
- Integrative Health Environments
- Health and Wellness Tourism

Our goal is to help students develop the academic foundation and professional confidence needed to explore opportunities in India and internationally.

INTERNATIONAL STUDENT SUPPORT

A Supportive Start for International Students

Students coming from outside India may require additional support while adapting to a new academic and cultural environment.

Our international student support can assist with:

- Visa-related guidance
- Accommodation assistance
- Campus orientation
- Academic guidance
- Cultural orientation
- Student support

We aim to make the transition into academic life as comfortable and structured as possible.

STUDY CLOSE TO HOME

WHY STUDENTS CHOOSE BNYS

A Different Approach to a Healthcare Career

If you are fascinated by healthcare but also interested in **yoga, nutrition, lifestyle, preventive health and natural approaches to wellness**, BNYS can offer a distinctive educational pathway.

It brings together:

Medical Science + Naturopathy + Yoga + Nutrition + Lifestyle + Preventive Healthcare

The result is an education designed to help students understand health from multiple perspectives.

PARENTS' CORNER

Because Choosing a College Is a Family Decision

We understand that choosing a medical education programme is a major decision for both students and parents.

Parents want clarity about academics, eligibility, infrastructure, clinical exposure, student support and future opportunities.

At Susheeladevi, we encourage parents to ask questions and understand the academic journey before making a decision.

We believe in:

- Transparent communication
- Structured academic guidance
- Student mentorship
- Practical learning
- Professional discipline
- Responsible healthcare education

Your child's future deserves an informed decision.

FAQ
